Movement Record

The following information must be recorded in the holding register within 48 hours of the move taking place:

Requirements	OFF moves	ON moves
CPH/Name of the holding of destination/departure	✔	✔
Date of movement	✔	✔
Number of animals moved	✔	✔
Haulier's Name and Vehicle Registration Number	✔	
Individual eartag numbers of Full EID double tagged animals moved *	✔	✔
No. of animals with each unique flock mark (EID slaughter animals)*	✔	✔

* For sheep moved off your farm through a Critical Control Point (CCP) you can choose to rely on the ScotEID database to provide details of individual numbers of EID breeding sheep and of the number of sheep with each unique flock mark (EID slaughter animals).
For sheep moved on to your farm through a CCP you can also choose to rely on ScotEID database, providing most sheep have been read and recorded. You are advised to check the database regularly particularly after making any purchases.

Annual Inventory

The total number of sheep and goats present on the holding as at January 1, must be recorded in the holding register by February 1. The same figures must be returned to DEFRA on the form provided.

Death Record

The individual identifier and the date of death must be recorded for every animal born or identified after 31/12/2009.

Sheep Identification

QUICK GUIDE

Identification Record

When you first tag animals born or identified after 31/12/2009, you must record the following information in the holding register within 48 hours:

1. The date the animals are tagged
2. The individual numbers (or flock mark for slaughter sheep) used on this date
3. The number of animals tagged
4. The year of birth
5. The breed
6. The genotype (if known)
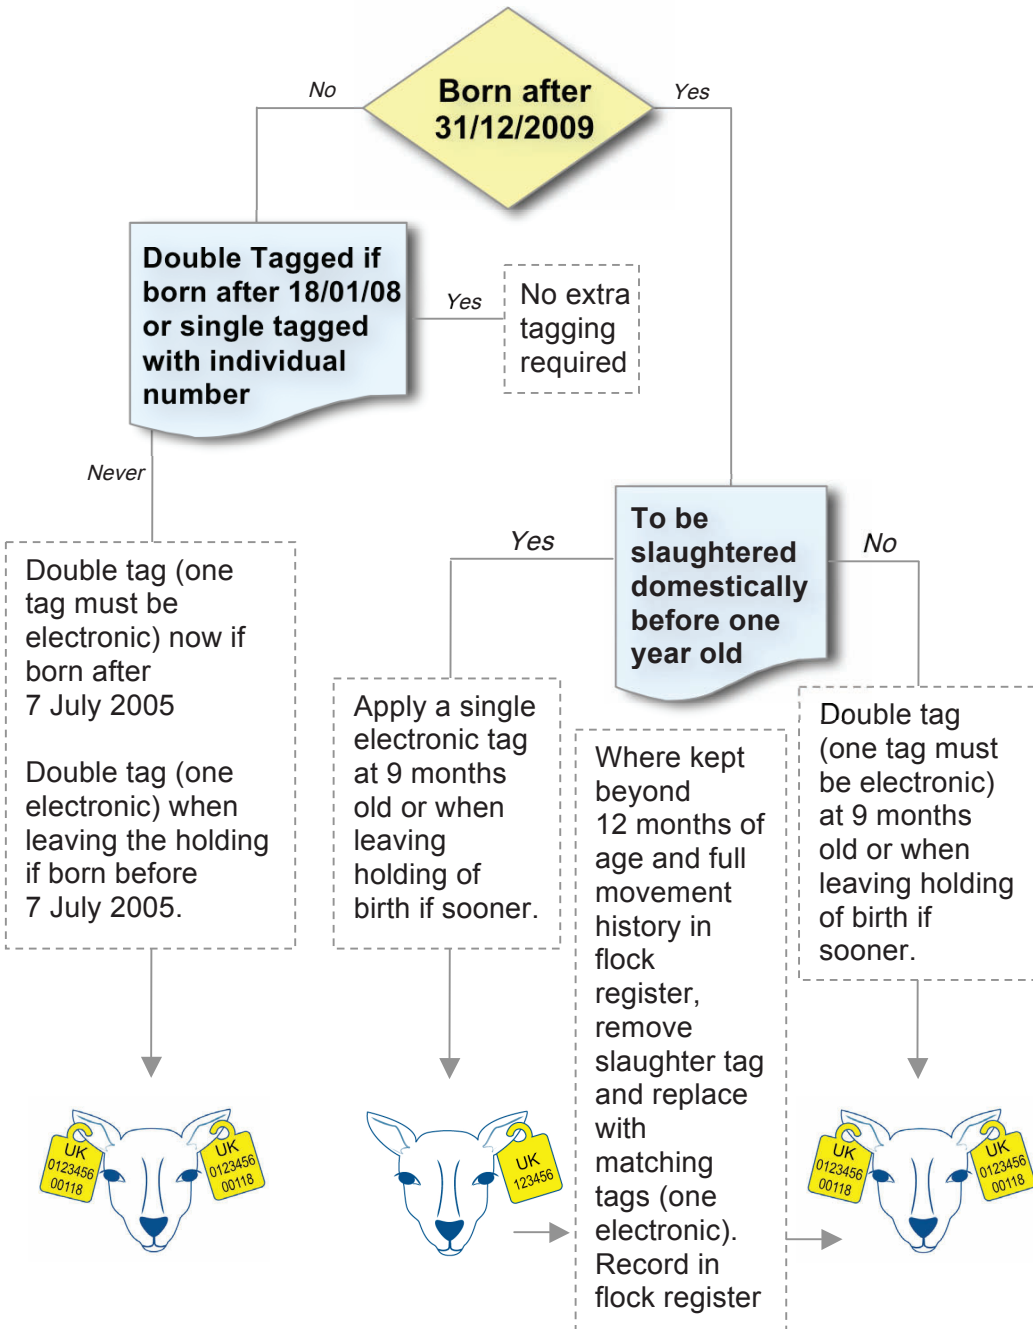

Replacement Tag Record

When replacing lost or illegible tags, you must record the following information in your holding register within 48 hours of the replacement being made:

1. Date of replacement
2. Individual number (or flock mark for slaughter sheep) on replacement tag
3. Cross reference with previous tag (if known)

The Scottish Government

How to tag your animals

Born after 31/12/2009

No → **Double Tagged if born after 18/01/08 or single tagged with individual number**

Yes → **No extra tagging required** (from Double Tagged box, Yes)

From Double Tagged box — Never → Double tag (one tag must be electronic) now if born after 7 July 2005

Double tag (one electronic) when leaving the holding if born before 7 July 2005.

From "Born after 31/12/2009" Yes → **To be slaughtered domestically before one year old**

Yes → Apply a single electronic tag at 9 months old or when leaving holding of birth if sooner.

Where kept beyond 12 months of age and full movement history in flock register, remove slaughter tag and replace with matching tags (one electronic). Record in flock register.

No → Double tag (one tag must be electronic) at 9 months old or when leaving holding of birth if sooner.

Replacement Tagging

Retagging animals (all ages)

Breeding — Single or Double tagged

Slaughter

Homebred | **Purchased** | **Homebred** | **Purchased**

Record the replacement in the flock register. For lost tags either replace with an identical tag **or** remove any remaining tags and apply 2 new matching tags. Where animals are no longer on the holding of birth red tags must be used.

Record the replacement in the flock register. Replacement with an identical tag is a further option for purchased animals.
